

Prophetic Encouraging Word
From Shawn Bolz, Expression58.com

December 2003

I feel like this year is literally the starting line for the greatest season you've ever walked in. And I feel like you have already seen a glimpse of what it could be like last year. But you are about to enter into a true mother and father anointing. And you won't be able to keep up with the fruit because the activation will be so broad.

And I feel like the Lord is saying that He is going to give you mouth pieces to equip which means people who have great messages for the Body of Christ. So you are going to have a lot of preachers and you're going to have a lot of teachers to equip and a prophetic edge to them and you are going to have a lot of people who have eyes of discernment.

And there is going to be a dual focus of those who are going to be in the church and those who will be a part of the business community and all of it will gear towards justice. And I feel like the Lord is saying if you will focus on doing something towards the business community this year, if you will literally plant your feet in the business community through the ministry. You don't have to be business people but through the ministry. And you will minister prophetically into the business community in the Chicagoland area.

That God is going to bring people who have been waiting to find out how they can be a great blessing in His Kingdom to you. And they are going to have the partnership you need to take great huge leaps next year. I felt the Lord said there is some sort of series of meetings or ministry that is for business people. And I felt like if you will activate more people it is like there is a preaching circuit in that region and if you will activate your people, people will begin to invite you - Especially young people to preach all around the region and pretty soon there will be no end to opportunities even Sunday mornings will be shared by people you raise up. It will part of a regional preaching track who will bring a new message and a new like a frequency to that whole area. Blessing and I love you.
